Objection Form

I want to object to the Settlement in *In re: Facebook, Inc. Consumer Privacy User Profile Litigation*, No. 3:18-MD-02843-VC (N.D. Cal.) but remain a member of the Class. I understand that if I object to or comment on the Settlement, I am still eligible for benefits.

You can ask the Court to deny approval by filing an objection. You can't ask the Court to order a larger settlement; the Court can only approve or deny the Settlement. If the Court denies approval, no settlement payments will be sent out and the lawsuit will continue.

DO NOT FILE THIS FORM IF YOU WANT TO EXCLUDE YOURSELF FROM THE SETTLEMENT

I. YOUR INFORMATION

Rushi	Pandya
First Name	Last Name

[REDACTED]	[REDACTED]	[REDACTED]

Facebook Account Username(s) (if available)	Email Address(es) associated with Facebook account	Phone number(s) associated with Facebook account

II. OBJECTION

What are the reasons you object to the Settlement? Please provide any supporting materials.

I want this statement to be read in Court.

I want the Court to deny the settlement. I'm objecting to the settlement because I can't agree with the settlement terms and the settlement amount. The payout amount is not nearly enough for me as a settlement for the claims it seeks to settle. My reasons are that facebook's net worth is far more than the settlement amount (a small fraction) and it has generated all of its money because of its users, and seeks to 'address' some severe accepted criminal claims by the settlement which I have been personally affected by. Almost all 'prioritized claims', 'priority consumer protection act' claims, and 'non-prioritized' claims, except those not concerning New York, New Jersey and Pennsylvania, as well as other claims which I may have.

The stipulated amount to me is far too less of a settlement to an individual to do justice for some of the 'prioritized' criminal claims and aims of the settlement. Selling of all of my facebook data and daily activities and routinely tracking ridiculously personal data and selling to third parties criminally without consent, for theirs and another party's eventual monetary gains. It is absurd to me to accept the amount for some of the criminal (most) claims it seeks to settle which, I believe what is implied, according to the settlement terms, one can't contest if you don't appropriately act on this lawsuit.

Also, the settlement is definitely not enough justice for me specifically from Facebook for sure because I'm a targeted victim of [REDACTED] (see attached link of a UN document and attached document itself), which has [REDACTED] defaming social aspects and the company was validly and indeed repeatedly used as a tool for [REDACTED]. I can't humanly accept the settlement amount

I urge the Court to deny the settlement.

To summarize, based on these two core reasons – (i) not enough and disproportionate stipulated remuneration for the gravity of the claims. To consider - the company, which depends on its users in entirety for its net worth, and proportionating with the settlement and settlement claims of the lawsuit. (ii) can't accept the settlement amount being a victim of [REDACTED] – as mentioned above.

Does your objection apply only to you, to a specific subset of the class or the total class?

I would want it to be known to the total class, but I can't speak for others, being a victim of [REDACTED] unlike hopefully all other class members, so I have to apply the objection just for myself.

Were you a Facebook user at any time between May 24, 2007 and December 22, 2022?

☒ YES ☐ NO

If so, when were you a Facebook user? (Please indicate years of use)

2009 (or before) to 2023. Active user every single year.

Requisite information - I resided in the US (New Jersey) for 7 months between 2015 and 2016 with my sister (blood relative), who is a tax paying US citizen. I visited multiple states and gained education while being in the US and have a good job because of it.

Have you (or your counsel, if applicable) previously made objections to a class action settlement?

☐ YES ☒ NO

If yes, how many times have you (or your counsel) previously made objections? (Please provide the caption of each case in which you (or your counsel) have made an objection).

Have you sold or otherwise transferred the right to your recovery in this Action to another person or entity?

☐ YES ☒ NO

If so, please indicate that person or entity.

Are you represented by an attorney?

☐ YES ☒ NO

If so, please supply their name and contact information below:

Please indicate if you and/or your attorney plan to appear at the final approval hearing.

No. But I will be attending on video conference.

NORTH DISTRICT OF CALIFORNIA

v.

Case No. _____

META PLATFORMS, INC.,
Respondent.

**PETITION FOR SHARE BY META PLATFORMS, INC. IN
\$725,000,000.00 (725 million dollars) PRIVACY
SETTLEMENT FOR FACEBOOK ACCOUNT HOLDERS**

NOW COMES the claimant, Okang K. Rochelle, pro se, with a request for a portion of the \$725,000,000.00 (Seven hundred and twenty-five million dollar) settlement for the accusation that employees of Meta Platforms, Inc. had

invaded the privacy of Mr. Rochelle, amongst countless other Facebook account holders, when permitting Cambridge Analytica—a British political consulting firm—to access his personal information as a Facebook user during the Presidential campaign of 2016.

JURISDICTIONAL STATEMENT

“The district courts shall have original jurisdiction of all civil actions arising under the Constitution, laws, or treaties of the United States.” 28 U.S.C. § 1331.

NATURE OF CIVIL SUIT

In the year of 2016 through 2022, it is believed that employees of Meta Platforms, Inc. had allowed members of Cambridge Analytica, a British political consulting firm, to access the personal information of millions of Facebook account holders for the purpose of voter profiling designed to

target the electorate during Donald Trump's successful presidential campaign in the year of 2016.

ACTUAL CASE AND CONTROVERSY

Being that Mark Zuckerberg, the CEO (Chief Executive Officer) of Facebook, has agreed to pay out \$725,000,000.00 to resolve a class-action lawsuit which alleged that Meta Platforms, Inc.—the parent company of Facebook—had allowed third parties, to include Cambridge Analytica, to access Facebook account holders personal information there is *a case and controversy* in the matter at bar because, as a party to this settlement, Mr. Rochelle asserts as a Facebook account holder¹ that he has suffered some actual or threatened injury, that injury is fairly traced to the challenged action of respondent, and the injury is likely

¹ Mr. Rochelle has had a Facebook account since July 10, 2020. See Petitioner's Exhibit A, Screenshot of *Facebook Accounts Center*.

to be redressed by a favorable decision. **Allen v. Wright**, 468 U.S. 737, 751, 82 L. Ed. 2d 556, 104 S. Ct. 3315 (1984)(“The requirement of standing, however, has a core component derived directly from the Constitution. *A plaintiff must allege personal injury fairly traceable to the defendant’s allegedly unlawful conduct and likely to be redressed by the requested relief.*”)(opinion by O’Connor, J.) (citing **Valley Forge Christian College v. Americans United for Separation of Church and State, Inc.**, 454 U.S. 464, 472, 70 L. Ed. 2d 700, 102 S. Ct. 752 (1982)). Accordingly, Mr. Rochelle has shown that he is entitled to a portion of the funds associated with the payout by Meta Platforms, Inc. for privacy act violations.

RELIEF SOUGHT

If the tribunal of the United States District court accepts the distribution of funds agreed to be paid out to eligible Facebook account holders by Meta Platforms, Inc. for its employees breach of the public's trust, Mr. Rochelle is asking that he receive a portion of the settlement in the amount of \$50,000.00 (Fifty thousand dollars) for their breach of his privacy as a trusted Facebook account user.

CONCLUSION

Based upon the foregoing facts to this cause of action, the judiciary should grant the instant petition, and award the monetary amount sought for relief by Mr. Rochelle herein.²

² The funds requested by Mr. Rochelle can be sent to his person by an employee of Meta Platforms, Inc. can be sent to his person by check or money order to the foregoing mailing address or, if more convenient, through Mr. Rochelle's online [REDACTED] by using the following information:

Dear Honorable Chhabria and Clerk of Court Busby,

Re: Facebook, Inc. Consumer Privacy User Profile Litigation 18-MD-2843-VC

I am writing to the Court to request a Motion for Extension of Time in regards to the Facebook, Inc. Consumer Privacy User Profile Litigation, case number 18-MD-2843-VC. I am going to die from injuries suffered by the individuals that bribed Facebook employees to illegally manipulate and use private user information on Facebook. My facebook account goes back to my first real post dated October 1, 2009, but I only found out about this particular court case after the July 26, 2023 deadline. I still would like to object to the filing, which requires a postmark by July 26, 2023 with a claim dead line on August 25, 2023. I deserve money for damages. The group [REDACTED] involved in killing me are the ones who bribed Facebook and its employees to post bait-and-switch advertising banners for people to click on a Facebook banner if the person liked Joseph Biden for President, usually a Facebook labeled banner loaded on top of a webpage or search engine such as Yahoo, in order to effect the 2020 United States Presidential election. The account that paid the Facebook employees and Facebook's company accounts to create the bait and switch advertising whereby clickbait suggesting one click if the person liked Joseph Biden for President generated a mail-in ballot. This illegal mail-in ballot was generated by a user-not guaranteed to be the voter-clicking on the Facebook banner at the top of a webpage. The monies paid to the Facebook employees (usually billions to each) to generate the mail-in ballots was discovered to be the \$1.6 trillion dollar Ukrainian feeder account tied to the stolen uranium by-product nuclear waste water that is missing from [REDACTED]. These local [REDACTED]. Three times over \$200 billion has been seized and now three times \$40 billion has been seized with the last round being seized by the state of Mississippi at [REDACTED] Dec 2019. The 80+ million Facebook accounts' data with uploaded federal and state identity cards with digitized signatures were illegally utilized to create fraudulent mail-in ballots for President Biden—not President Trump. The Cambridge Analytica firm and President Biden's cousins, [REDACTED], are financially tied together. Moreover, [REDACTED] and Biden were working together [REDACTED].

This matter was locally recognized here in [REDACTED], because Facebook generated 42 mail-in ballots for [REDACTED]. [REDACTED] gave me one of her old phones before Covid-19 lock-down and I had it through the Presidential election cycle in 2020. However, [REDACTED]. She could not possible have signed her name. [REDACTED]. The 42 mail-in ballots in her name were, I suspect generated by the fraudulently posited number of days allowed for mail-in ballots, as locally we are only allowed one mail-in ballot per day, but the locals listed our original national election day as the first Monday before Thanksgiving. They never reposted any correction. We actually just voted on Election Day, same as everyone else the first week of November, with only KNOETV8, I think, covering the blooper on the webpage. That mistake appears to provide 42 days with one mail-in ballot allowed per day, generating 42 possible mail-in ballots for a person, as from the October to November 2020 mistakenly listed dates, there are 42 days. These mail-in ballots were generated by Chinese

Facebook workers and China has actually executed a manager for interfering with our elections. However, the money was paid to American citizens. Mark Zuckerberg admitted in Congress that he knew of Cambridge Analytica's ability to generate psychoanalyzed profiles, but that is NOT the end of the story. FACEBOOK GENERATED MAIL-IN BALLOTS, INCLUDING THE FRAUDULENT 42 [REDACTED] BALLOTS THAT HAVE BEEN PROVEN TO BE ILLEGAL. [REDACTED]

[REDACTED]. The signature was real but illegally used. It was Facebook employees who directly received the billions in money laundered funds tied to the feeder accounts for the stolen uranium by-product and heroin monies awarded for the "purity" of the processed uranium sold illegally to China and Ukraine. Facebook knew going back to its 2019 Federal Trade Commission settlement that this constituted illegal use of Facebook users' personal information for personal gain through bribes to the Facebook employees for the purpose of fraud. The new privacy measures did not work because they were bribed to commit fraud. This is not the first time they lied over these matters, as even in 2017 Mark Zuckerberg fraudulently posited in media that Russian actors were overthrowing the election, when in fact, these were Ukrainians, as the group responsible for the bribes and illegally trafficking the stolen heroin and uranium by-product, [REDACTED] Biden, [REDACTED], all had Odessa Port of Authority stamps dating back to the USSR, allowing for the word "Russian" in ethnicity at the time, but not nationality now. In a livestream, Mark Zuckerberg alluded to the Cambridge Analytica firm, stating that investigations were on-going into "organizations like the campaigns, to further our understanding of how they used our tools." Mark Zuckerberg's testimony to the SEC contradicts some of his deposition to the House Financial Services Committee in 2019, but he was aware by March 2018, per his statements, that this Cambridge Analytica was potential issue, it seems, albeit further SEC comments point to his knowing of Cambridge Analytica to the first he commented in an email, he suggests, in 2017 due to an article in *Motherboard*. My point is that the media wrongly prescribed this to be used by President Trump. Frankly, both could have used it—BUT PRESIDENT BIDEN'S COUSINS PAID MONEY TO FACEBOOK TO ENSURE THAT THE CRIMINAL ORGANIZATION'S ACTIVITIES WERE NOT PROPERLY INVESTIGATED. President Trump does not have the billions to give each Facebook employee in the upper echelon of Facebook that was bribed. He is a billionaire but he does not have that much money. This was a violation of campaign finance reform laws and specifically was after process service in the 2019 Federal Trade Commission settlement, whereby Facebook was ORDERED to pay fines and FACEBOOK EMPLOYEES WERE RECOGNIZED AS RESPONSIBLE FOR THESE "PRIVACY MISSTEPS" FROM THERE ON, WHEREBY ZUCKERBERG BECAME LEGALLY PERSONALLY RESPONSIBLE FOR PRIVACY FAILINGS, as of July 2019 before the 2020 election cycle, meaning that the Facebook attempts to create a Facebook banner and interfere with the US Presidential 2020 election was AFTER the settlement and process service occurred, whereby jeopardy was attached. My point is that there is fraud; a reasonable man could infer fraud has occurred. It is not just the US Securities and Exchange Commission document reporting on their finding that Meta CEO Mark Zuckerberg misled Congress and the American public about how early he knew the threat Cambridge Analytica posed to Facebook user privacy and security with sworn deposition obtained by Zamaan Qureshi, policy advisor of Real Facebook Oversight Board. The Facebook company was put into bankruptcy after bribes allowed for bait and switch advertising, which resulted in clickbait scheme to generate phony mail-in ballots stored by at least [REDACTED] Clerk of Court, whereby over 42 ballots were discovered for [REDACTED]. Furthermore, I used her old phone and the top banner of Facebook urging people to click on Facebook to go to Facebook or to "like" Joseph Biden for President, did not ever represent itself as printing mail-in ballots that would only be destroyed if a person showed up in person. I am a registered Democrat, but I would NEVER vote for President Biden. His family killed 8 million Jews. I am not kidding. [REDACTED], whose family ran a German duchy for 300 years, killing 8 million Jews from 1890-1920, removing over \$200 billion in hard securities from the same Canary Island bank the same week the \$200 billion went missing from the Israel-Palestine land purchase was supposed to occur, resulting in a 50 year payment to Palestine through World Court's recognition that Israel had in fact paid the money, but the bank lost it. The [REDACTED] hate Jews and frequently have called me a "[REDACTED]." They do not like me. I am going to die from injuries due to their network of accomplices. I AM HORRIFICALLY OFFENDED AND HAVE COMPLAINED TO THE STATE OF [REDACTED] OVER THESE GENERATED BALLOTS AS I DID NOT SHOW UP TO

VOTE FOR ANY PRESIDENT BUT WOULD NEVER CAST EVEN ONE MAIL IN BALLOT FOR PRESIDENT BIDEN IN THAT ELECTION AND AS A CONSEQUENCE OF MY CITING FRAUD, THE PEOPLE OVER OUR VOTING SYSTEM WERE FOUND GUILTY OF FRAUD. I REFUSE TO VOTE FOR PRESIDENT JOSEPH BIDEN. They generated fraudulent votes and the resulting investigation found huge discrepancies, one of which I readily identified immediately as fraudulent—[REDACTED].

[REDACTED] could not have voted even ONE time. And, she would never have mailed in her ballots from China. [REDACTED]

[REDACTED] This is the same group that threatened to kill President Trump when he returned from Russia, which I also turned in, only for the media to report that 15 Secret Service agents were injured in an explosion and a hospital release news that 20 had died later from that attack. I AM THAT AMICUS! This is very serious. The money is real. The federal judicial investigation into Facebook resulted in the bankruptcy of Facebook with Zuckerberg obtaining a 17-year time extension and a seal on the matter. However, he had to quickly sell off Facebook's hard assets into two new companies at least, Instagram and Meta, in order to raise capital to pay the Courts that day. The \$1.6 trillion fine was the amount the feeder account paid the bribes to Facebook. It is also the feeder account tied to [REDACTED] who also bribed former Justice O'Connor, who was fired, after being found guilty and awaiting a further appeal, and the Southeast Director of the FBI, who was fired and is now found guilty and executed in prison.

I would like an extension for time for the Courts to consider the merits of the case already pending before the Courts in the deceptive marketing practices of Purdue Pharma. I know that this sounds unrelated, but it is not. The [REDACTED] heroin organization branched out into uranium by-product smuggling operations with the aide of Hunter Biden and Michael Johnson. [REDACTED] bribed five Sacklers \$1.1 billion each, and [REDACTED] bribed the Pfizer President \$1.1 billion. I am the Amicus in both these litigations that proved the money. I turned in [REDACTED] \$40 billion account number that led to the federal judicial investigation revealing the \$1.6 trillion feeder account for the \$40 billion account of [REDACTED]. The \$1.6 trillion feeder account was a personal checking account in the Ukraine tied to [REDACTED] as the signature, master of the account with [REDACTED] as an allowed signature, but as a duly authorized agent on the account. Under deposition, Dr. Neumann admitted he did not actually own the account or its monies, only the transfers allowed by [REDACTED] account. In other words, our Clerk of Court, who assisted them in covering for their employment of Timothy McVeigh for heroin trafficking loads and was Court ordered to never work for the Clerk of Court again, cited bank fraud erroneously. It was payroll. They bribed many. Governor Jindal was also bribed, as well as former Justice O'Connor and the Southeast Director of the FBI. Gov. Jindal has been ordered to die in prison after being found guilty, and the Courts acknowledged one of the reasons for the severity was due to Gov. Jindal illegally publishing my name as the Amicus that stood against them. There are Court gag orders on my name being published as the Amicus to this hellish disaster. I would like a request for an extension of time to be considered on the same grounds that the U.S. Solicitor General Elizabeth Prelogar, representing the U.S. Trustee, has already argued successfully to allow for a grant of a hearing before the Supreme Court, temporarily blocking the settlement affirming that Judge Drain and bankruptcy courts lack the constitutional authority to force third-party releases. I should not be forced to accept "dying the way a [REDACTED] out to", as one [REDACTED] put it. The Courts granting immunity for these individuals to kill to run heroin, humans, and uranium by-product nuclear waste water poisoning would grant these terrorists the fidelity of the US government in their atrocious acts to kill whistleblowers and amicuses without giving me any redress at all, as they shop around to different courts to cut down on costs through shopping fraud. The DOJ maintains that bankruptcy courts have "no authority to force creditors to sign away their legal rights if they don't like the settlement terms," according to the Wall Street Journal. In this particular occasion with Facebook,

given the 2017-2019 advance notice through process service over the issues of Cambridge Analytica use of Facebook user information, the employees' legal distinction of limited-liability partnership has lesser legal standing due to the process service and purposeful government investigatory findings that Facebook employees were to be legally responsible before the 2020 Facebook banners interfered with the election. Over the concomitant moral hazard of allowing the unconstitutional use of money-laundered funds from a Ukraine checking account tied to tax fraud, the Courts decision should allow for a further investigation into the Facebook bribes from [REDACTED] shared accounts, as they were specifically tied to selling stolen uranium by-product nuclear waste water and to forcing bait-and-switch advertising to appear that a click for Facebook was a vote for Joseph Biden and click-bait moment of "liking" on Joseph Biden for President banner of Facebook hyperlinked to Facebook. Neither of which guaranteed the person clicking through or switching screens was the actual registered voter. In [REDACTED]

[REDACTED]. In my circumstances, although I paid for my [REDACTED] phone, the original phone was registered under [REDACTED] and as it registered her Facebook account on that phone, it is possible the psychoanalytic data allowed the clicks she made on the phone to generate content on my identity without my authority or permission. I WOULD NEVER VOTE FOR PRESIDENT BIDEN FOR PRESIDENT. I am the [REDACTED]

[REDACTED], and documented as such in other countries. I am hated as "Other." The klan of [REDACTED] s have tried to burn down my house twice. I WOULD NEVER VOTE FOR THEIR COUSIN! [REDACTED] financially assists [REDACTED] Joseph Biden so much that in the 1970's when Delaware changed its campaign finance reform laws, they literally had to immediately reverse their own amendments with a grandfathered in clause to prevent the death in prison of their own elected personnel-President Joseph Biden! Literally, President Biden had to take a diversion agreement to never take a pay raise because they discovered in IRS and Legislative Audits that he owed so much in back taxes, whereby he became the second lowest paid Senator in US Senate on purpose to avoid death in prison! I do not approve of the family. He is NOT Jewish. His ancestry is German, and the Biden dynasty married into the [REDACTED]

[REDACTED]. The siblings have had \$200 billion seized three times and \$40 billion seized three times now since the most recent Mississippi seizure after [REDACTED] s death in 2019. The government is now investigating the \$1.6 trillion they have received. In the Purdue matter, the employees clearly controlled the company and the assets of the business and owners became ambiguous due to the monies paid from the \$1.6 trillion feeder account to bribe them from the \$40 billion feeder accounts of [REDACTED]. If the same type of bribes to protect their heroin and uranium by-product trafficking trade paid from the same accounts by the same men in the Purdue mess ALSO paid Facebook, then I would hope that the Court decision on the bankruptcy of the Purdue company and the employees, namely the Sacklers, who took the bribes, would have a legal standing to temporarily halt the Facebook bankruptcy settlement issue from being falsely resolved by far lower than the Courts originally settled on the \$1.6 trillion fine that was in fact sealed. The \$1.6 trillion fine is what made the Meta and Instagram companies owe so much and that is what is, I suspect, driving this attempt to obtain a Court judgement of a far lesser amount of \$750 million cap on creditors in a limited liability. In other words, they already had to pay the fine, but the limited liability shield is what YOUR COURT IS ACTUALLY AWARDING! They already had to go into debt and sell of the hardware of Facebook to the companies Meta and Instagram with bank loans that they got a 17 year time extension on payments to the bank. I think what I am trying to say is that they are maneuvering in a way that would attempt to justify a judgment that would later, if the Supreme Court ruling goes against the Sacklers, would show that fraud by way of bribery to commit unconstitutional acts tied to treason and terrorism are NOT shielded by bankruptcy courts and the awards cannot in this circumstance be used to justify shielding the employees from the injuries sustained by creditors, including the U.S. Trustee. The bribes tie the group together. The Court seems to be used here to prevent the government from easily continuing to investigate the matter by having a Court judgement supersede and upend the investigation without actually truly considering what really happened. They were never bribing for President Trump, and the bribes were specifically tied to President Biden. However, the monies were tied to criminal enterprises, which included heroin, human, and uranium by-product nuclear waste water trafficking stolen from a transfer between [REDACTED] [REDACTED], proven in multiple Courts in multiple states in multiple federal judgments to have arrived in [REDACTED]. It has now been removed illegally by the way, and we

are missing it. I am the amicus. Technically, the Post Master that was executed was executed for his lies during deposition and his bribes, but I am the amicus that asked for an investigation, as my medical records showed a sudden change that was not physically possible without removal of the uranium by-product from our superfund waste dump, which was not legally allowed. We have a no-sell on that radioactive matter. They purposefully bounced it through four government entities on paper to commit fiduciary fraud to then bounce it into their personal ownership, made more complicated by their pretensions to hospital trust fund board positions by illegally and fraudulently documentation on the judicial database in our district suggesting they worked in these geographic areas, which they did not work at, resulting in our judicial database failing judicial audit investigation even before Covid. In fact, because the fake forensic pathologist and fake director of phlebotomy, [REDACTED], imagined with his imaginary doctorates that the true answer to Covid-19 was the strongest LSD-laced rheumatoid arthritis, higher than anaesthesia grade narcotics, by prescription the highest drugs one can prescribe outside a hospital per a graph he toted, this 30+ year documented heroin addict and his accomplices voted in [REDACTED] opening few weeks of Covid-19 to prescribe rheumatoid arthritis over antibiotics, and due to the arrangement STILL illegally uploaded into our FBI NCIC and federal judicial databases by Special Agent in Charge Robert King, despite orders to cease and desist, their votes tallied over others, as they were fraudulently installed over many hospitals, resulting in their total votes for themselves being over-counted stupendously. We became the 9th largest death rate for a country or state in the opening weeks of Covid-19, whereby our real medical professionals without imaginary doctorates got together and demanded a conference whereby they denounced the procedures and processes tied to the rheumatoid drug and announced antibiotics would be used REGARDLESS OF WHAT THE PROCEDURES WERE STATING IN THE DATABASES, which were the basis for insurance companies to make payments in [REDACTED] at that time. [REDACTED] were always partners, which has now become the finding of the Courts. [REDACTED] is left as the sole candidate to have driven the uranium by-product nuclear waste water away from [REDACTED], and his fraudulent reasonable doubt has been found dead in the New York state park woods by the prison, having been dead all along. The real CDL driver never left New York. The militarized zone is only missing one person: [REDACTED]. By process of elimination, [REDACTED] is the missing driver. The FBI of NY has confirmed the City of Albany Superintendent was the [REDACTED] [REDACTED] wanted after having left in a way that the DOC is not responsible for his injuries, whereby the DOJ was forced to arrest, convict, and execute two prison guards who did not correctly fingerprint him upon his demanding access to the employee parking lot, pretending for a second time to be an employee at the prison, whereby he somehow gained access to the now stolen water truck carrying the now stolen and declared covered-up theft of uranium by-product nuclear waste water from the [REDACTED] water containment crisis post-2001. [REDACTED] and the stolen uranium by-product arrived in [REDACTED] in 2005. The sell of it was illegal, as even blind-testing without acknowledging its Indian Point Nuclear Reactor point-of-origin, the uranium by-product, heavy-metal poisoned water was too acidic, so lethal, as it was guaranteed to be under Department of Interior control and as such, under its "no re-sell" contract under the law. They have since executed two of the local DOI directors for the loss and cover-up, and bribery made certain it stuck. This matter is a lot more complicated than this, but my point is that you are being used to justify a lower threshold of limited liability in a way that does not directly address the damage done to those injured by the heroin and uranium by-product trafficking network that came to bribe employees of Facebook, resulting in President Biden's election support by illegal campaign finance reform laws being broken through an illegal bait and switch advertising banner, which ultimately generated real-world ballots for President Biden-not President Trump. By suggesting that Facebook itself would only have to pay \$750 million or thereabouts, the Courts are blind to the billions in profits made AFTER THEY WERE PROCESS SERVED TO NOT USE THE FACEBOOK USER ACCOUNTS. By being able to suggest that this shopping fraud judgement holds power or sway over the decisions without considering the Pharma December 2023 Supreme Court decision regarding limited liability in bankruptcy proceedings tied to these specific [REDACTED] bribes, these Facebook employees could injure their creditors more in the long run. Their \$20 billion in campaign finances for internet bandwidth usage to put Biden on each Facebook screen banner was deliberately not taxed properly. The bribes to Facebook employees after process service shows intent to commit crimes.

Sincerely,

Stephanie L. McKnight
